

# POWER EQUIP

Sales  Reps

**Representing Quality Manufacturers**

[www.p-esr.com.com](http://www.p-esr.com.com)

- **SCHNEIDER ELECTRIC** - ION Meters, Relay and Protection solutions, Telvent RTUs and SCADA Systems, ASCO Automatic Transfer Switches
- **BIERER METERS** - Providing Lineman Proven Safe, Dependable and Tough made in USA Voltage Detectors, Phasing Meters, Test Equipment, Temporary Personal Grounds(TPG), Jumper Assemblies, and Cover Up.
- **ADVANCED POWER TECHNOLOGIES** - Transformer Temperature Monitoring Systems
- **MEIDEN AMERICA SWITCHGEAR** - 72.5KV and 145KV Dry Insulated Vacuum Circuit Breakers
- **ELECTROMARK** - Signs, Tags, Seals and Markers for All Utility Applications
- **MD HENRY CO.** - Engineered Substation Structures and Tapered Transmission Poles - Complete Substation Packages and Engineering Services
- **HIPOTRONICS** - Medium and High Voltage Test Sets and Measurement Instrumentation
- **CO7 TECHNOLOGIES** - Distribution Fused Cut-outs, Medium Voltage Substation Doghouse Vacuum and SF6 Circuit Breakers
- **SUN-WA/TOGAMI** - Fault Clear Triple Single Solid Dielectric MV Auto Recloser

- **TRAYER ENGINEERING CORP** - 5 thru 35KV Padmounted ATS, SCADA & Automation Switchgear AND Submersible Switchgear
- **HV TECHNOLOGIES** - High Voltage and Cable Test Equipment and Service Solutions
- **RAPID RAIL INTERNATIONAL** - Specializes in Fall Protection for Transmission and Distribution Structures
- **CUSTOM PLASTICS** - Thermoplastic T&D Products
- **PRIMAX** - Battery Chargers & Systems
- **ALCAD** - Single Cell Ni-CAD Batteries for Utility Substation and UPS Applications
- **ENDURO COMPOSITES** - Fiberglass Crossarms for Distribution and Transmission Poles
- **EMEK** - Medium and High Voltage Instrument Transformers –CTs up through 420KV and VTs up through 525KV
- **TMC TRANSFORMERS** - VPI Dry-type up through 15 MVA and Cast Coil Transformers up through 25 MVA
- **DUAL-ADE** - Medium Voltage up to 38KV SF6 Free GIS Switchgear
- **Niagara Power Transformers** - Voltage capacities up to 138kV & 650kV BIL & sizes (base rated) up to 50MVA with fans up to 100MVA
